HLFK

Hookloader sliding- hinge lowest roller height 190 mm

www.hydrolift.be

*The combination of sliding and hinging makes it possible to load short and long containers

*Very low roller height 190 mm.

*Probably the lowest in the market,

*The roller height of 190 mm is achieved by optimizing the geometry.

*Tunnel height of 100 mm

*Chassis made of high strength steel

*Pneumatic – hydraulic control, optional radio control

*Built in hydraulic safety functions

*Hook height 1450 until 1570 mm on demand

*Hydraulic outside locking or inside shaft locking

Primed,

GVW Totalvægt	Capacity Kapacitet	lg (mm)	l (mm)	a (mm)
6X4 < 26 T	20 T	5730	4250-5750-(6250)*	800
		5910	4500-6000-(6500)*	900
8x4 < 32 T	24 T	5940	4500-6000-(6500)*	900

Optioan equipment:

- Hydraulik pipes to the rear
- Extended chassis frame for crane mounting
- High-speed
- Soft stop function
- * Radio control
- Coverplate over valve block
- mounting plates
- painted in standard truck chassis color
